VESTAL'S

Wholesale Catalog '51-'52

We wish to announce to our wholesale florist friends and customers that we are discontinuing as of June 1, 1951, our retail catalog and retail mail-order business. After consideration, we have decided upon this step in order that we may better serve you, our wholesale customers.

We have not made this decision without recognizing our obligation to thousands of home owners and amateur gardeners throughout the South and Southwest. We have served them for more than seventy years with all or part of their plant requirements. In a way this has been a hard decision to make, for we have many fine customers who look to us for special plants, many of which cannot be obtained elsewhere.

As our representative in your section, you should make it possible for these former customers of ours in your locality to be able to get their needed plants through you. We will continue to grow the same full line of plants as in the past, and it is our hope that you will serve our friends in your locality through your business.

We shall try to list all of our plants in our wholesale catalog, but in the event that your customer should ask for any not offered in this catalog, write us. We may have what you want or be able to tell you where to get it.

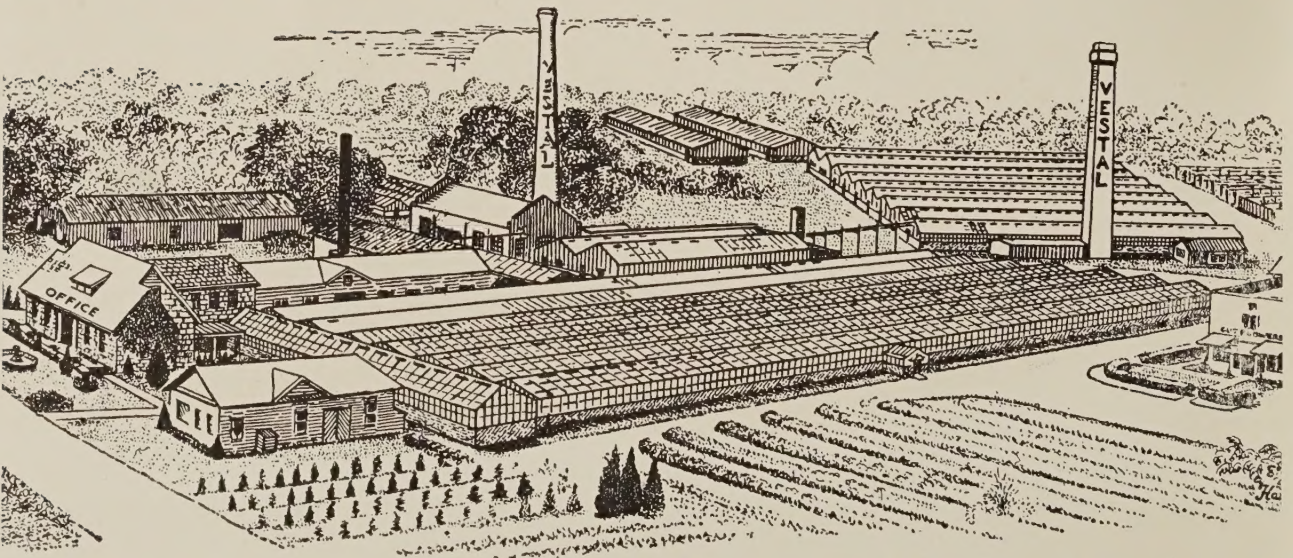

Our aim is to provide you with the very best in plant materials. We look forward with much pleasure and anticipation to the continuance of our friendly relations.
